For all ages and subjects; Title: FIE Standard Level 1 Foyerstein's Instrumental Enrichment Program For Everyone?: What is the certificate course for teachers, lecturers, psychologists, parents, and support staff working in elementary education, special education, junior high school, and higher education? For more information about Billy O'Neill Billy from Foyerstein Training, please visit our training page. Overview Learn how to use the Foyerstein Instrumental Enrichment (IE) program to draw out the potential of all learners. A very provocative idea. I really enjoyed trying the instrument. It's very useful to think about how to connect cognitive functions, come up with principles, and bridge them. Participants develop the ability to improve student development as successful learners, confident individuals, responsible citizens, and effective contributors. Instrumental Enrichment (FIE) Standard Level 1 (5 instruments) 5-day certification course for teachers, instructors, psychologists, parents, elementary education, special, junior high school, and support staff working on higher education. Ruben Foyerstein's Instrumental Enrichment is a cognitive intervention program that provides important and powerful benefits to students' learning and achievement. More than 1500 studies with a broad group of learners from countries around the world demonstrate the power of Foyerstein's methods of empowering students to improve their cognitive skills, academic performance, and emotional intelligence. IE provides students with the concepts, skills, strategies, operations, and techniques they need to prepare teachers and helpers to correct basic thinking skills flaws and function as independent learners, and provides intensive and rigorous training programs that increase motivation, develop student metacognition, and help them learn how to learn and knit. FIE materials are organized into five devices that make up a series of pen and paper tasks, targeting the development of cognitive functions that are independent of the content of any subject area and easily transferred to all educational and daily life situations, increasing difficulty. This course consists of five instruments or units of work: dot organization: learn how to inhibit impulsivity, systematically search, transport visual images, develop strategies, and develop accuracy and precision. Orientation in Universe 1: Perceiving and projecting spatial relationships that lead to understanding of human relationships. Reduce/Increase the flexibility of thought and expression thinking. Comparison: Learn to develop spontaneous comparative behavior. Improves perception, accuracy, and the ability to establish relationships. Analytical perception: Learn to divide the whole into component parts and project relationships between parts to build the whole. Develop an analytical approach to life. Illustration: Learn how to recognize problems and find solutions. Develop the ability to decipher details and use hypothetical and tremendous thinking. Learn how to perceive human relationships. Download the Sample Foyerstein Training FEE Standard Course Assessment [PDF]. Refer to the training page for future training opportunities. Contact us for more information and information: +44 (0)1355 243635 or 0753 869 3092 Email: billy@feuersteintraining.co.uk Intensive intervention using this program is very effective in correcting lack of cognitive function and enhancing an individual's ability to learn effectively in formal or informal learning situations. An important aspect of IE is in the way of education. It's based on guidance, not mediation. The process of IE sessions includes trained Foyerstein intermediaries who gradually guide, analyze, disassemble, and discuss issues through increasingly complex cognitive issues (either classroom or one-on-one sessions). The ongoing level of mediation allows you to change IE so that the child develops and the progress of the child is monitored. The IE program prepares language and conceptual tools, spatial and time concepts, and expressional activities for young learners. Students learn the process of reflexive thinking and develop internal motivation. The program develops learner emotions as a passive re-producer of information, not as a generator of information. Foyerstein's IE Standard Level Program is for 5th-year children. This program is based on paper and pencil practice where the level of difficulty and abstraction gradually increases. Each set of instruments in the program focuses on specific cognitive areas such as analytical perception, comparison, and classification. It also includes language, mathematical, logical, and emotional skills. This program focuses on developing strategies for problem solving and analytical reasoning that learners can continue throughout their lives. To get the latest information on the next Class Lincoln Elementary School, we will implement a three-year level, five, six, seven, and eight Foyerstein Instrumental Enrichment Program. Foyerstein's approach to thinking education is internationally regarded as an effective program for a wide range of learners. More than 3000 peer reviews and research articles on the New Zealand and international stages show positive effects on students Foyerstein's Instrumental Enrichment (FIE) is a classroom program designed to enhance cognitive function required for academic learning and achievement. The basic assumption of this program based on Professor Reuben Foyerstein's theory and research is that intelligence is static, fixed, dynamic and changeable. Therefore, the program aims to help students learn how to learn by correcting basic thinking flaws and providing students with the concepts, skills, strategies, operations, and techniques they need to become independent learners. Page 2 Page 3 Executive Officer - Mrs. Sharon Garrett Secretary - Mrs. Emma Thorpe Office Administrator - Miss Kate Findlay Recovery - Mrs. Karen McKinney Librarian / Assistant Teacher - Mandy Wilson Teacher's Aide - Isobel Rusk, Katherine Martin, Tannier Donoso, Penny Penn, Nicky Irvine, Tracy Chan & Shara Barclay. Care Taker - Bart Coles 5 Our school policy can be viewed and reviewed using the following log in detail by clicking on the link below: Username: Lincoln Primary Password: Contact your school friend at any time with Hero page 6 email: pta@lincolnprimary.ac.nz the purpose of PTA PTA we find - promote social connections within the school community. - Welcome new families - coordinate the use of the school pool community during the summer. - Raise funds to provide schools with additional resources that are not funded in other ways, such as classroom sunscreens, sports team uniforms, school band support, and many other things. The PTA meets at least once during the term of office, and the meeting includes representatives and teachers of the principal. For the date of the meeting, please refer to the school newsletter. We are always eager for parents to come together to find more in our meetings and new members love to join us.

The current friends study order of the school initiative - affordable quality books for your children and free books for school libraries! When a family orders a book from this great catalog, they receive credits that school librarians can spend to buy new books for the school library. Last year, the school library got a free book for more than 1500 dollars. This is a great way to support school and your child's education. A used uniform shop school uniform shop friend sells new school hats, used uniforms. During the semester, it is open every Friday from 2:45 p.m. to 3:15 p.m. and is located next to the school hall by the Senior Playground. Please note that only cash is accepted. Uniforms that are no longer needed in good order will be received gratefully. Items can be donated to a friend of a friendWhen 20% of your revenue goes to a school friend, you sell or sell on your behalf. Uniform items can be dropped at uniform stores and school offices. Or 021 140 9725 or melissa.pete@xtra.co.nzClothing Bin Blue Clothing Bin is located on Boundary Road near the high school drive path. Old clothes and soft household items are welcome. Used clothing boxes are great little earners for school friends, so keep up the good work and continue to supply our bins! From cool cafes to great fine dining, this is our best membership packed with activities, attractions, shopping, travel and great offers for all kinds of delicious sweets. Great fundraiser for our school with excellent value for you! - Used Uniform Shop Sarah Fairburn - Entertainment Book Coordinator Helen Hulm - Community Pool Coordinator Page 7 then you need to download and print the permission form found right, read, sign and return to the school office along with other related documents. Due to overcrowding, Lincoln Primary no longer accepts out-of-zone registrations. However, please contact the school office for admission of international students. Page 8Current Vacancy Technical Teacher Part Time, Permanent, Time to FTTE: 0.7 Medium-term (1-8 years per year) / Kratuatahi, Certificate Teacher - Technical Vacancy Reference: 1HABFY0.7 FTTE Permanent Part-Time Technical Teacher has a fixed component of 0.3 FTTE if negotiated. We are looking for innovative and advanced team players to add more value to our technology team. We work together to allow students to set their own learning paths in a genuine context. If you are a multi-talented person in the field of design that combines wood, plastics, fabrics, STEAM, or many more fields, please submit an application. Vacant Reference: 1HABFY Close 3.00pm 09 OCTOBER October Job Description Here Technical Vision Statement HerePage 9 Our library plays an important role in all school programs. Ensure that both education and library staff continue to purchase the latest, engaging and exciting readings. The help of parents is appreciated for maintaining our library as an attractive learning environment. The library is a very popular lunchtime space for students of all years to read and exchange books. Students and teachers can search the library for authors, books, or subjects. All classes are scheduled to use the library at least once.For the development/practice of regular book exchange and library skills. If the child loses a book in the library, the parents will be charged for the exchange. We thank our parents for helping us by guaranteeing that the book will be returned on a regular basis. Page 10Q. What if my child doesn't have access to my computer/device? Are there any other options offered? A. Students take home a toolbox containing an exercise book. All communication with the family is done digitally, and parents can access it and coordinate the tasks that the teacher sends home. Emails from students to teachers are required to be in direct contact with pastoral care teachers. I was able to send a photo and show you the work that was taken up in the exercise book. Does the school provide guidance on how to do content filtering at home and how to do so? There is a cost to this, and you can also see if it can cover the cost. Q. What apps do they need to download and will they cost money? Can the teacher contact you by e-mail to answer the student's questions? You may also want to investigate zoom or similar ways to connect at a specific time of day for people who want to do a zoom. Will online learning be live or recorded? A. This is expected to be a combination of both, depending on the situation of the individual teacher. Some of our teams have young children at home, so we need to be flexible in what is expected of them. Is your Android device compatible with the apps you're using? If the Android option is not appropriate, students can request a device that your child can use. We have numerous devices in schools that families can access. We are intended to prepare this if you have completed a database of students who need a device and are toned out that the school is closed. Do you have clear expectations about each child's workload and time frame? A. The teacher will set expectations for how long the learning day will take. We expect about an hour or so per child. How do teachers keep a record of their children's progress? We will investigate how to manage assessments and reports at a later date. Date.
